EIZO ACADEMY

Because you never stop getting better

In the EIZO Academy you will find an extensive range of video tutorials, technical articles, seminars and workshops. Accompany us to the Lofoten islands or through Namibia in our two-colored-class video series, our experts give you extensive tips on monitor calibration, color management and soft proofing. They also provide in-depth knowledge on numerous photographic topics. You will also find specialist articles with detailed monitor knowledge. You can find everything about the EIZO Academy and the current dates of our seminars, workshops and webinars at www.eizo.academy

Calibration should be a matter of course for high-end monitors. Only then can the monitor be used to its full potential. Only then can the monitor be used to its full potential. Only then can the monitor be used to its full potential
