Screen InStyle Client

Opening the screen

Double-click the ▣ icon on the desktop or notification area.

## Installation procedure

Closing the screen

1. Connect the USB cable.

Click ✕ on the upper right of the screen. Connect the USB cable between the USB downstream port of the computer and the USB upstream port of the monitor (or the USB-C connector if the monitor is equipped with the USB Type-C connector).

2. Double-click "setup.exe", and follow the on-screen instructions to install the software.

Troubleshooting

Note

- The "User Account Control" dialog box may appear. Click "Yes".

Problem	Possible cause and remedy
1. The icon is not in the notification area.	• In Windows 10, select "Start", "All Apps", "EIZO", then click "Screen InStyle" to start the software. • In Windows 8.1, click ⊕ on the "Start" screen, then click "Apps", "Screen InStyle" to start the software.
2. Screen InStyle does not function according to configured settings.	• To make the Screen InStyle settings function correctly, the Screen InStyle icon must reside in the notification area. • If you have changed a setting in the page of each function, click "OK". Clicking "OK" applies the setting to the monitor.

- If .NET Framework 4.6 or a later revision is not installed on your computer, the .NET Framework 4.6 installer starts. Follow the on-screen instructions to install. You may be prompted to reboot the computer after the installation is complete.

When the installation is complete, the Screen InStyle icon appears on the desktop and notification area.
