Xerox® Standard Accounting (Standard)	
Standard Accounting	Standard Accounting is a free, easy-to-use accounting solution that allows you to track and manage your printing costs. It is available on a variety of devices, including desktop computers, mobile devices, and cloud-based systems. Standard Accounting provides a comprehensive overview of your printing costs, including the number of pages printed, the cost per page, and the total cost of printing. It also allows you to track printing costs by department, project, or user, and provides detailed reports and analytics.
Accounting Options – Network Accounting (Allows central server to manage all accounting)	Network Accounting is a more advanced accounting solution that allows you to manage all accounting from a central server. It provides a more detailed view of your printing costs, including the ability to track costs by user, department, and project. Network Accounting also provides detailed reports and analytics, and allows you to integrate with your existing accounting system.
Accounting Options – Mobile Accounting (Allows mobile devices to manage all accounting)	Mobile Accounting is a mobile accounting solution that allows you to manage all accounting from your mobile device. It provides a comprehensive overview of your printing costs, including the number of pages printed, the cost per page, and the total cost of printing. Mobile Accounting also allows you to track printing costs by department, project, or user, and provides detailed reports and analytics.
